Weekly Newsletter

Friday 7th May
2021 Summer Week 3

Dear Parents, Carers and Children,

We hope that you have had a lovely week. The children have been working extremely hard and we are genuinely very pleased with their efforts as we continue to make up for lost learning during lockdown. We have been enjoying a wide range of activities across the curriculum this week and the children have demonstrated some fabulous skills and maturity in their learning. Have a fantastic weekend and we will see you soon!

Class 2 Rivers Trip—Monday 10th May

A quick reminder that the KS2 rivers trip will be going ahead on Monday as long as the weather is good enough. Make sure you check the letter from Mrs Umpleby to make sure that you send children in with the right clothes and everything they need.

Violin Lessons

Mr Fudge's Violin lessons have restarted and we are pleased that so many children have taken up the opportunity to learn to play. The children are all enjoying either getting to grips with the new instruments or returning to their old ones. For now lessons are in very small groups and focused on individual technique, however as the children find their feet again we will restart a music group so that the children can practise playing in unison.

Consent Forms & Volunteers

Thank you to everyone who has responded to our survey to see who is available to help out in different ways with school. We appreciate all the offers of help and we will definitely be in touch in due course to take you up on them!

Thank you too to everyone who has returned their updated information & consent forms. **Please make sure that you return them soon if you have not already done so.**

Gardening Club Bottle Appeal

A big thank you to people who've sent in large plastic bottles for gardening club. We'll be using plenty of these so if you have more please continue to send them in.

Dates for the Diary

- 10th May—KS2 Rivers Trip
- Wednesday 12th Math—Emma Lewis last day before Maternity Leave
- 20th May—Maths Workshop Evening
- W/C Monday 31st May—Half-Term
- 16th June—Sedbergh Athletics (provisional)
- 17th July—End of Term Service & End of Term

Cumbria School Games Award

Jessica Milburn has been awarded a special prize Goody Bag from Cumbria School Games for her exceptional commitment and enthusiasm for PE during the lockdown last term. Well done Jess for your regular activity, your determination to improve your efforts and your ability to inspire and encourage people around you to join in!

Science in Class 1 & 2

In class 1 this term we're looking at animals, their life cycles and their habitats. We're enjoying watching tadpoles from our pond develop and thinking scientifically as we compare the growth of the tadpoles indoors and the tadpoles out in the pond.

In Class 2 we are investigating electricity and circuits, exploring conductivity and circuit design by building simple light and motor circuits.

Weekly Awards

Writer of the Week

For fabulous science writing.

Values Champion

For Service in lessons.

Maths Hero

For excellent fractions work.
